

the original **spirograph**[®] **CYCLEX**[™]

spiral drawing tool

1. Place

- Place a piece of paper under the Cyclex[™] frame.
- Place a marker at the edge of the pattern you wish to make.

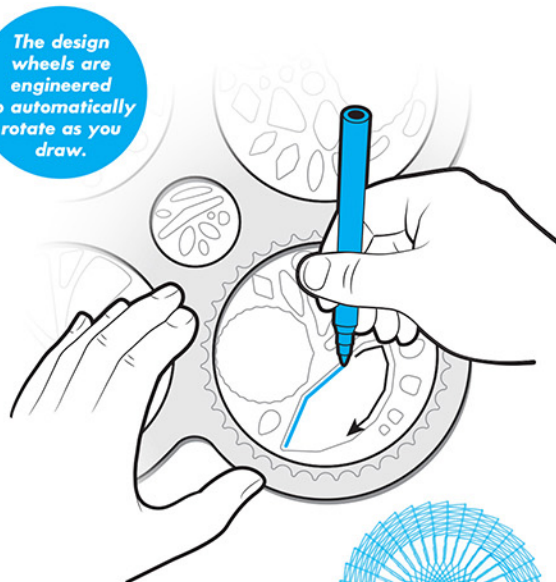

You can also draw Cyclex[™] designs with your own pens or colored pencils. Try them out to add different colors and details!

Place a protective layer such as a placemat or pad of paper underneath your drawing area to protect surfaces.

2. Trace

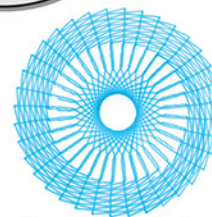

- Hold the marker vertically to the inside edge of the stencil shape.
- Holding the frame in place with your free hand, **trace the outline of the shape around and around** until your line meets where it began.

The design wheels are engineered to automatically rotate as you draw.

To complete the design, you'll loop around the stencil shape 36 times.

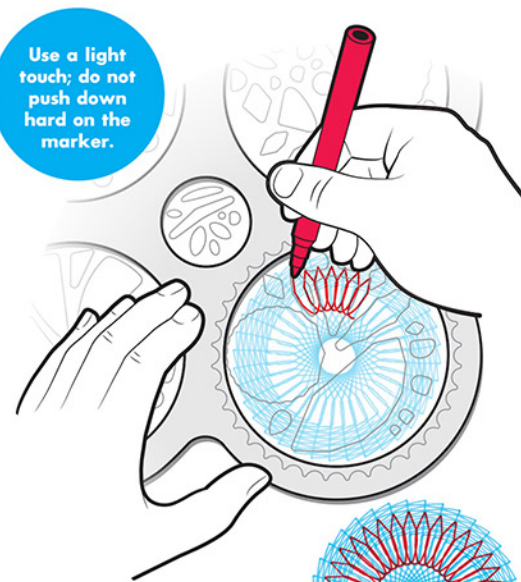

Be sure to hold the outer frame in place, but avoid resting fingers on the stencil wheel so it may move freely.

Completed design

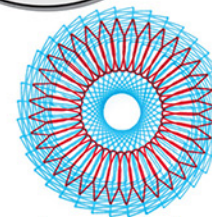

3. Repeat

- To add to your design, keep the Cyclex[™] frame in place on the paper and choose another stencil shape in the same wheel.
- Use a different color to draw a new pattern on top of the first.

Use a light touch; do not push down hard on the marker.

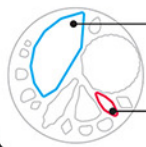

Always draw in the same direction (either clockwise or counterclockwise) until the design is complete.

Layered design

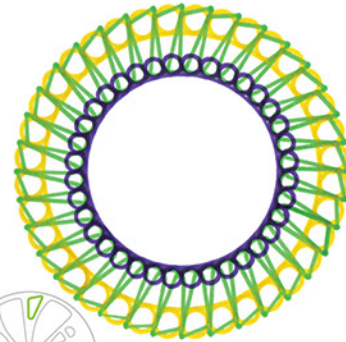

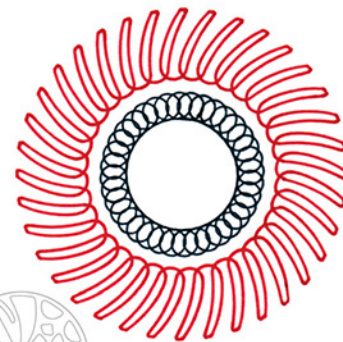

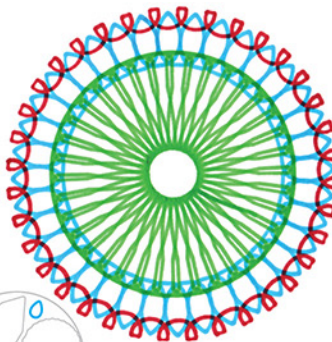

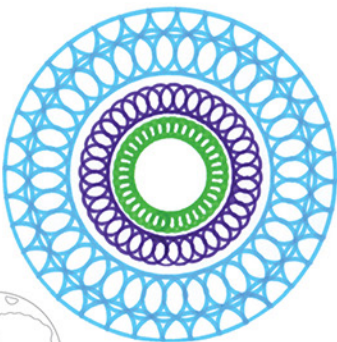

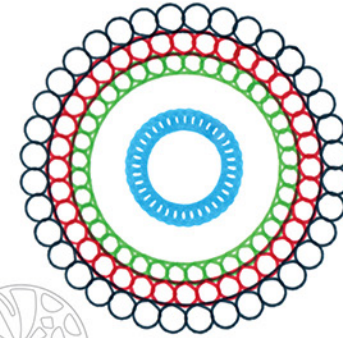

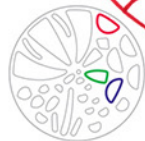

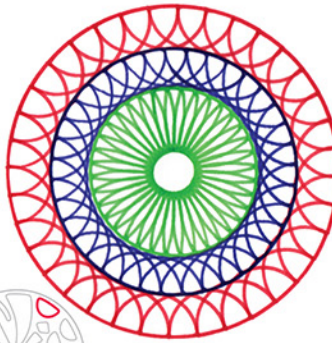

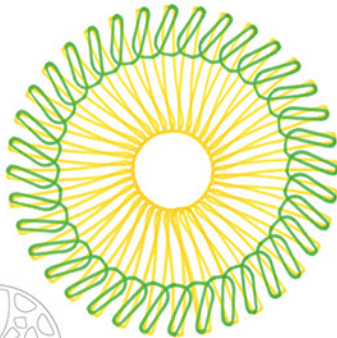

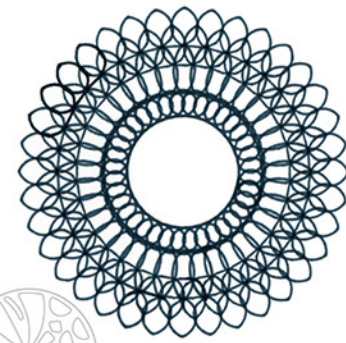

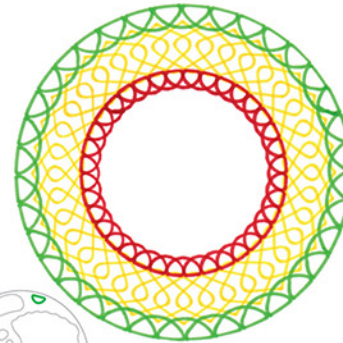

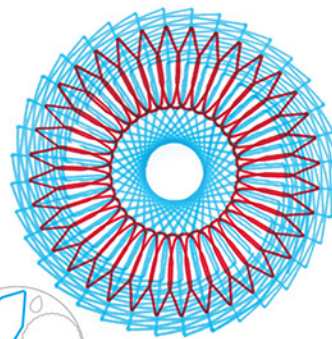

Design Key

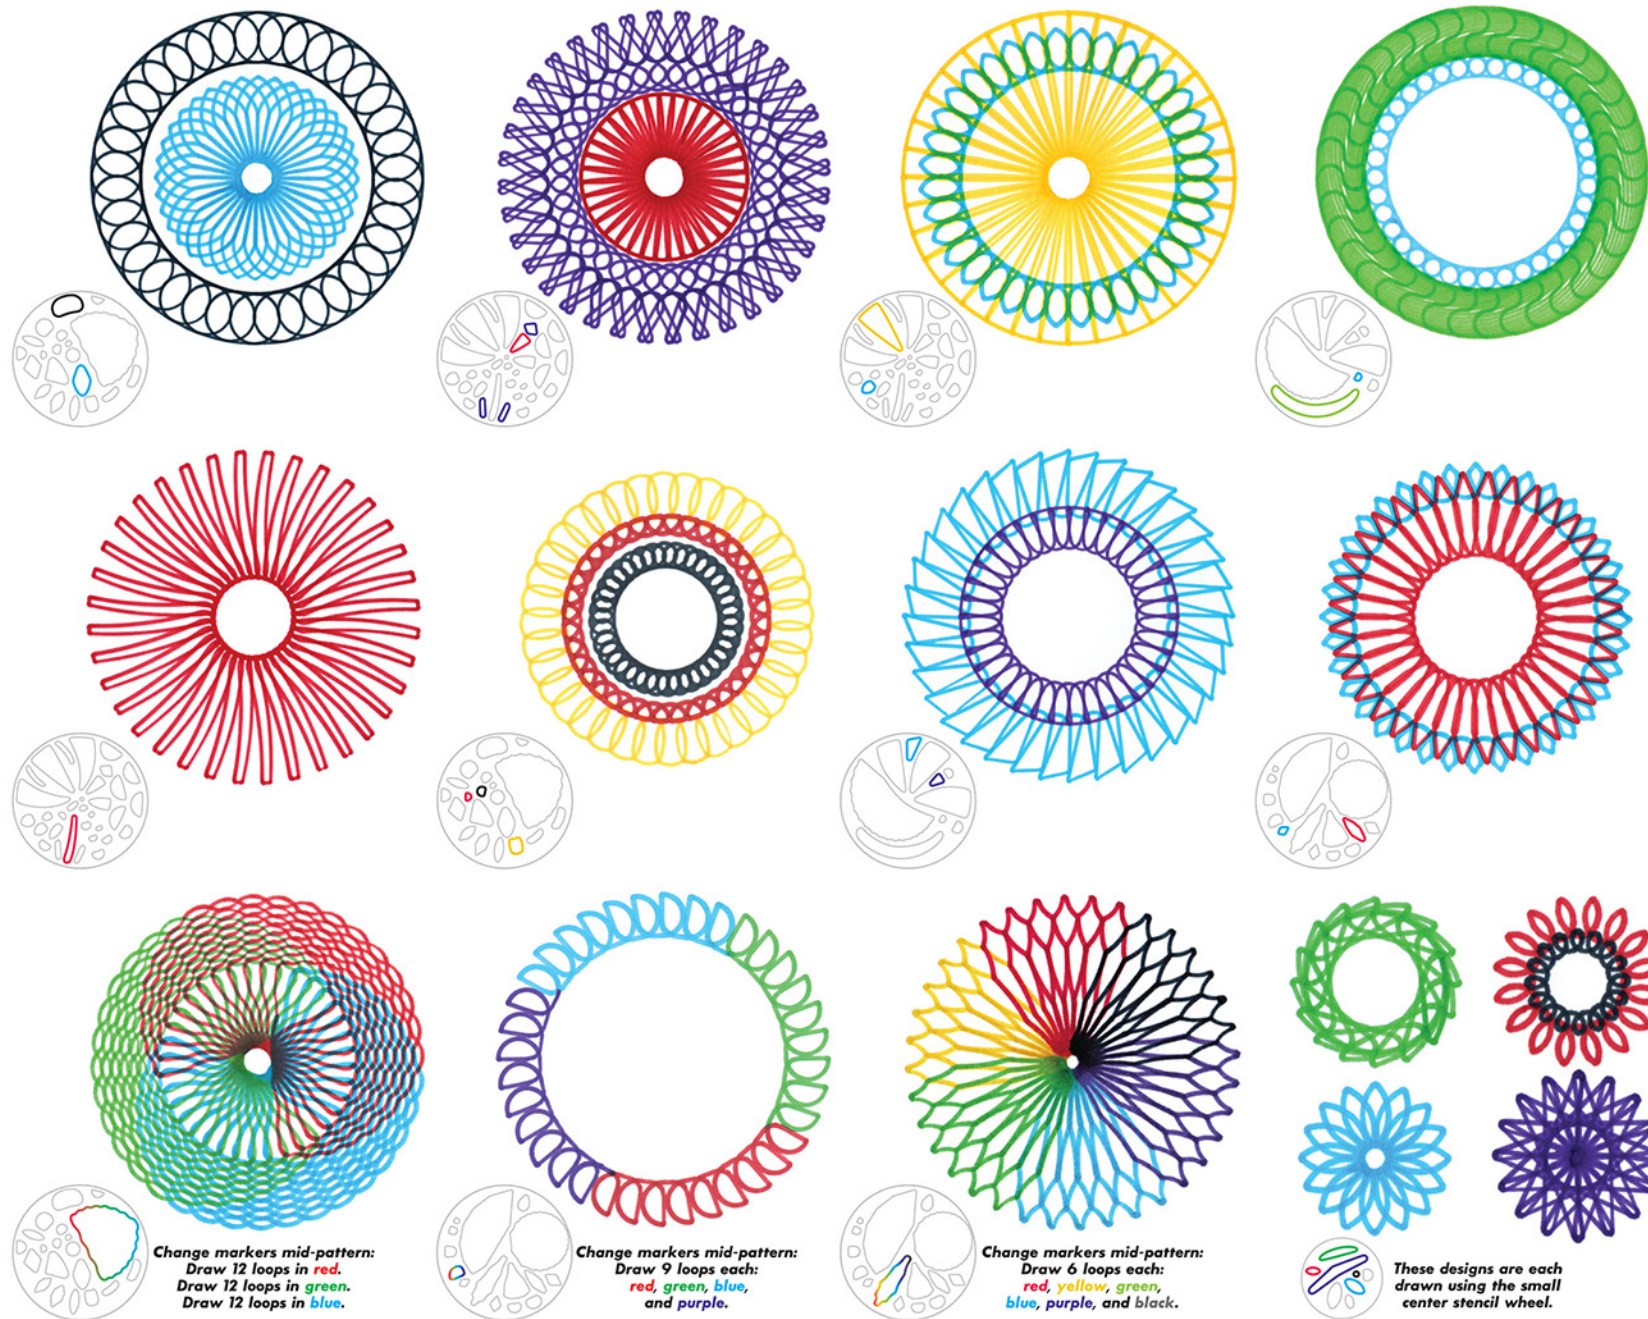

The diagram next to each design shows the wheel, shapes and colors used to draw the design.

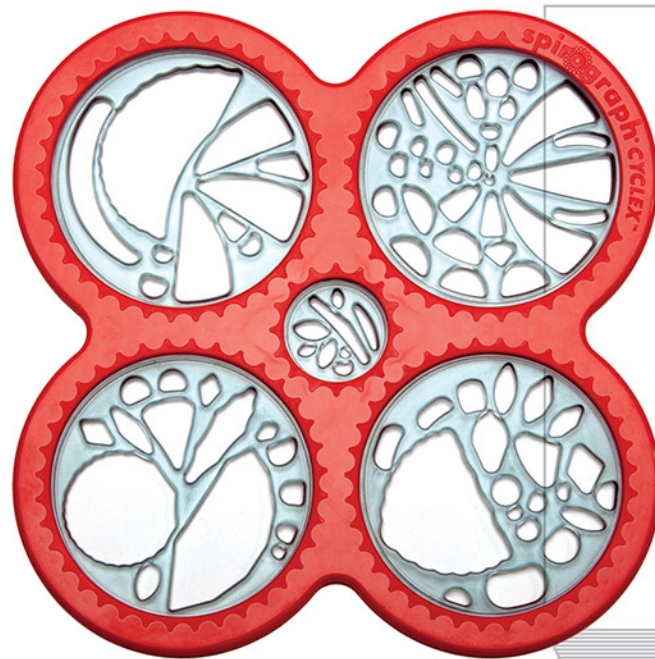

Draw this shape in **blue**.

Draw this shape in **red**.

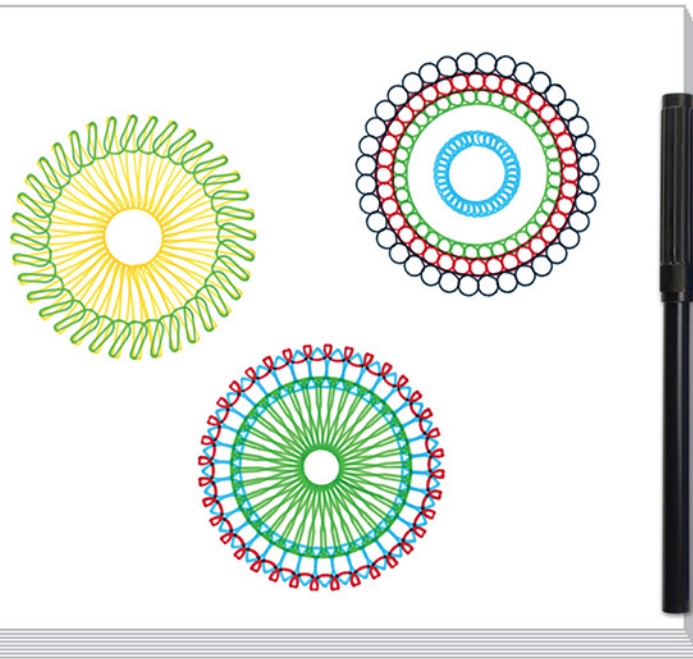

the original **spirograph**[®] **CYCLEX**[™]
spiral drawing tool

• Spirograph[®] Cyclex[™]
Drawing Tool

• 20 Sheets of Design Paper

• 6 Art Markers

The amazing Spirograph[®] Cyclex[™] drawing tool makes it simple for kids of all ages to create intricate and beautiful spiral art designs and patterns. Created by Denys Fisher, the inventor of the original Spirograph[®], the Cyclex[™] takes the Spirograph[®] drawing method to a whole new level. The unique rotating stencil wheels of the Cyclex[™] make it easy and fun to create incredible detailed designs.

Product and colors may vary. The Spirograph[®] Cyclex[™] Drawing Tool works with most pens, pencils, and fine-tip markers found in the market. Place a protective layer such as a placemat or pad of paper underneath your drawing area to protect surfaces. Marker inks may stain some surfaces and fabrics.
