CYCLEX™

1. PLACE

- Place a piece of paper under the Cyclex™ frame.
- Place a marker at the edge of the pattern you wish to make.

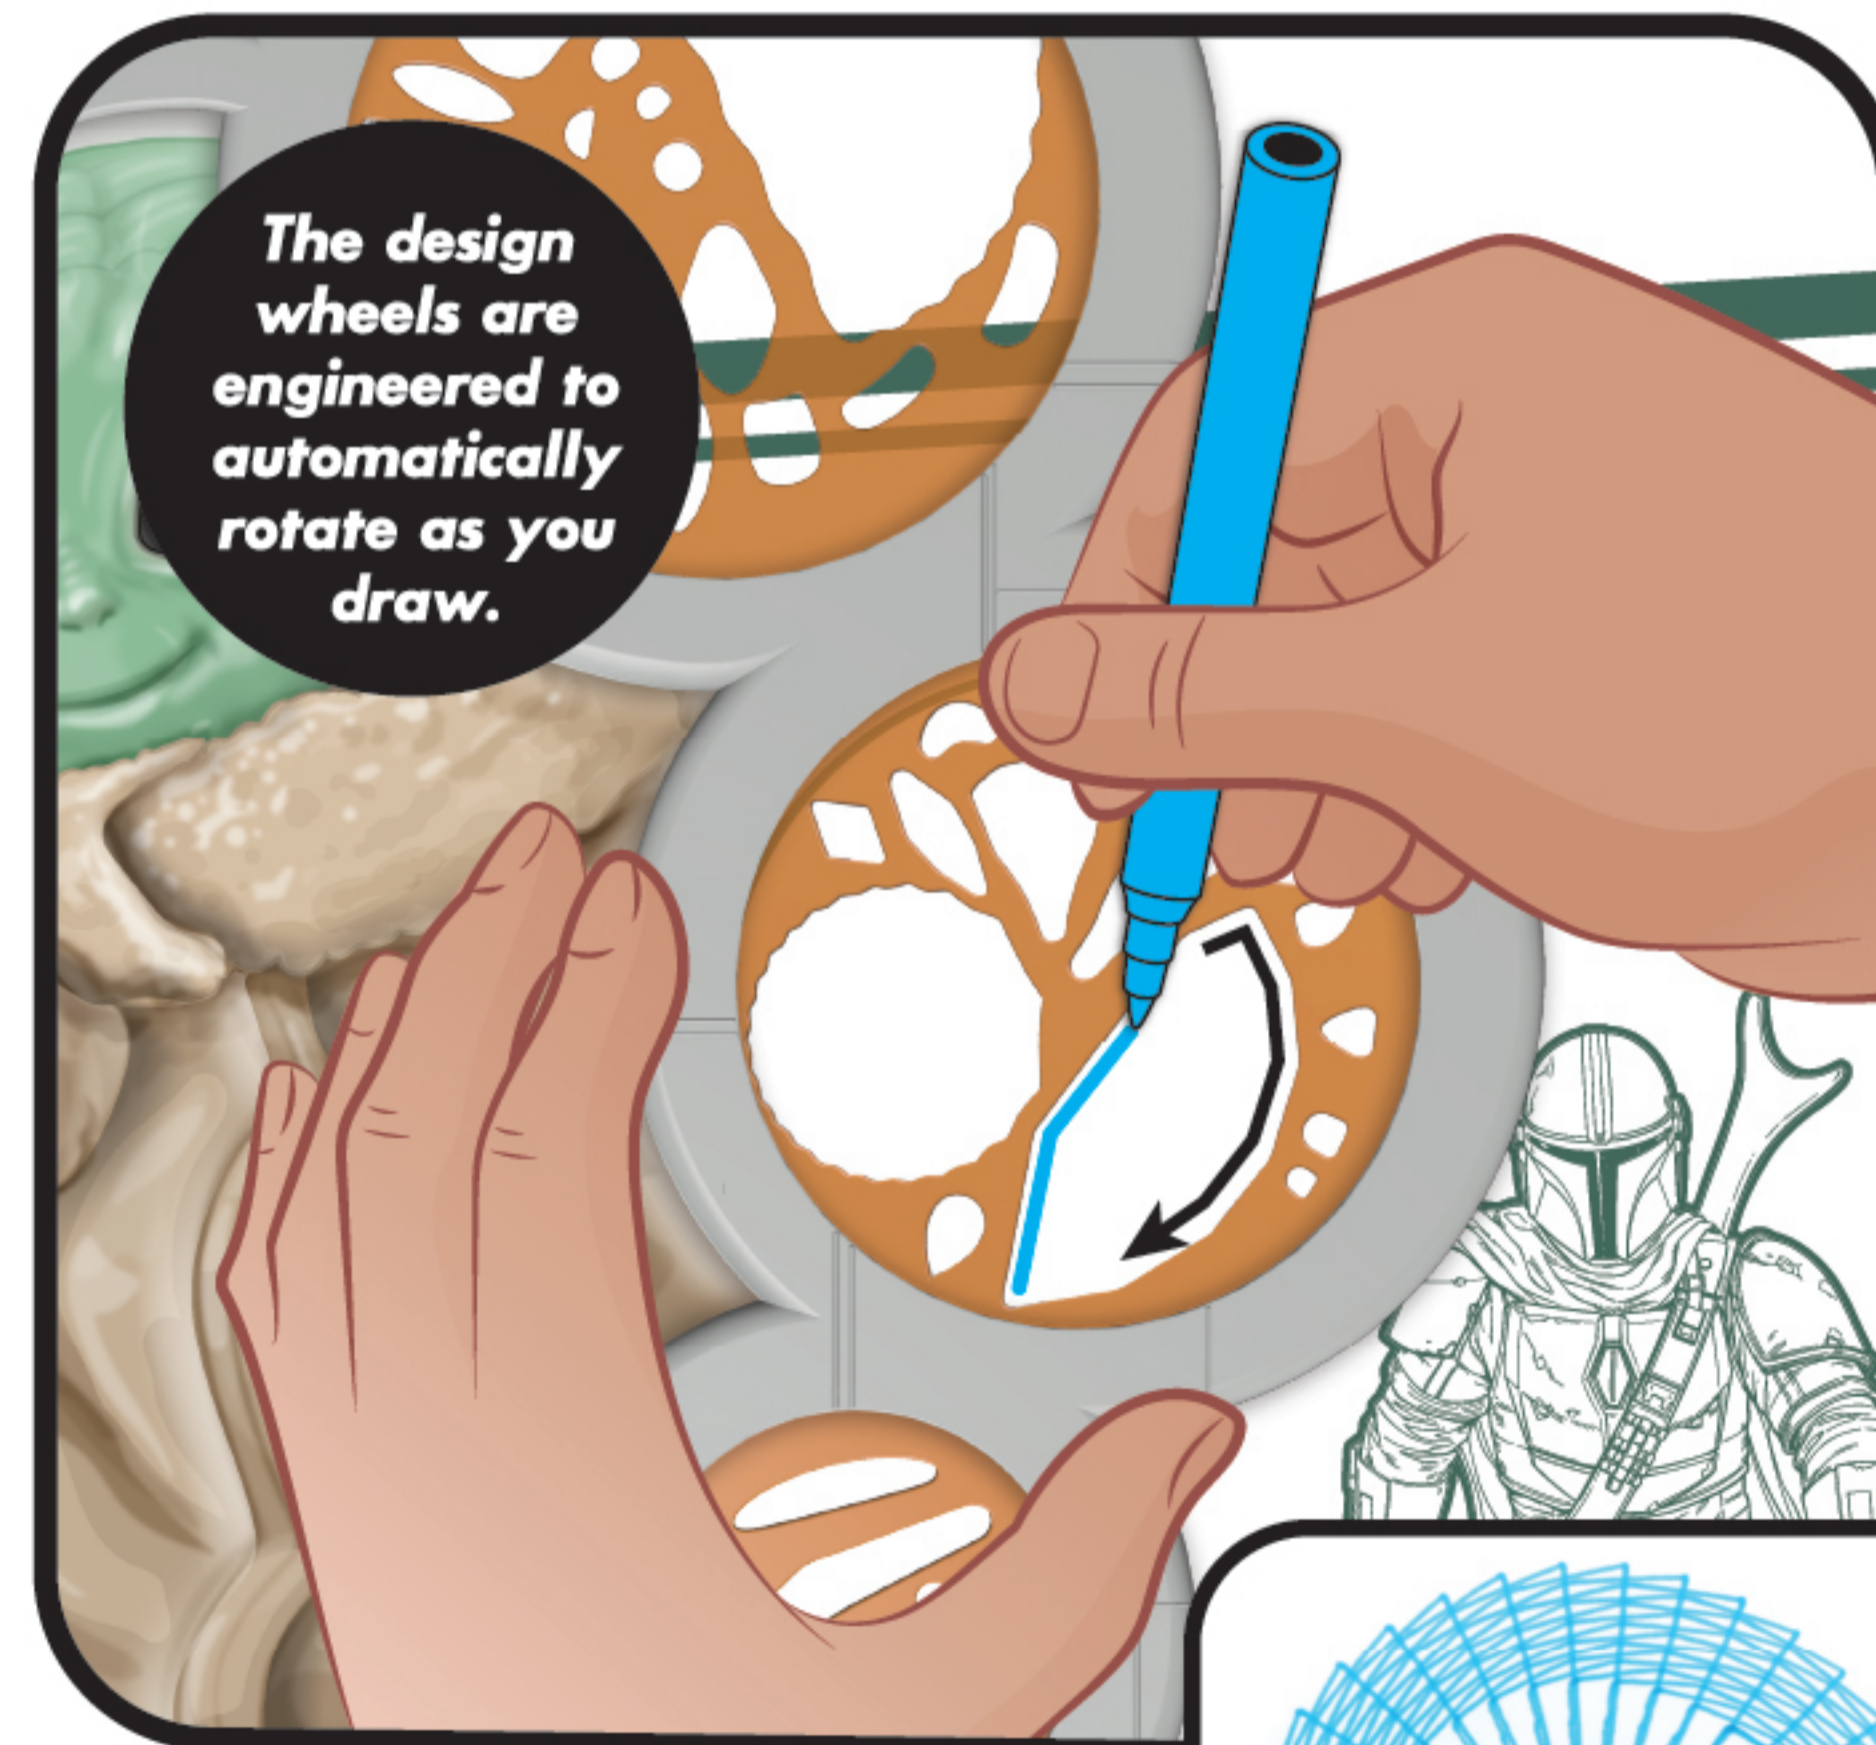

You can also draw Cyclex™ designs with your own pens or colored pencils. Try them out to add different colors and details!

Place a protective layer such as a placemat or pad of paper underneath your drawing area to protect surfaces.

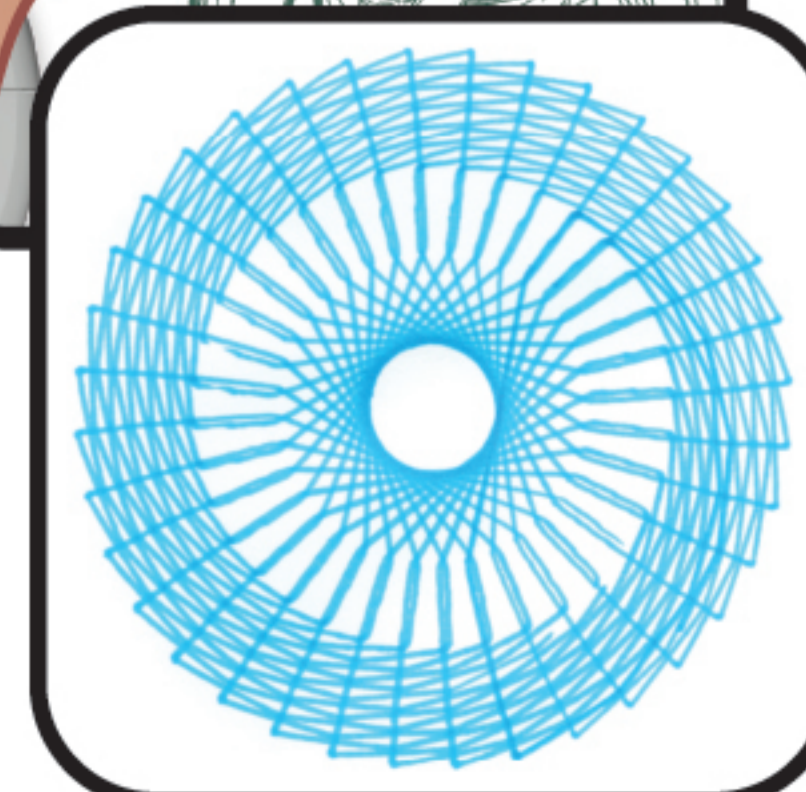

2. TRACE

- Hold the marker vertically to the inside edge of the stencil shape.
- Holding the frame in place with your free hand, **trace the outline of the shape around and around** until your line meets where it began.

To complete the design, you'll loop around the stencil shape 36 times for the two larger wheels, 16 times for the smaller wheel.

Be sure to hold the outer frame in place, but avoid resting fingers on the stencil wheel so it may move freely.

3. REPEAT

- To add to your design, keep the Cyclex™ frame in place on the paper and choose another stencil shape in the same wheel.
- Use a different color to draw a new pattern on top of the first.

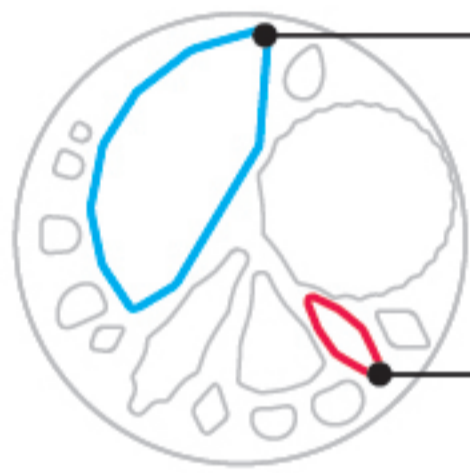

Always draw in the same direction (either clockwise or counterclockwise) until the design is complete.
